

# OXYGEN'S bio-based BRUSH RENEW Go Green ' 1

**OXYGEN'S** bio-based **BRUSH RENEW** is designed for quality trade and artist brushes which are expensive and hardens because of paint deposits. With brush renew they can be re-softened to obtain maximum benefit and use.

## List of material to be safely removed:-

- Oil based paints.
- Solvent based paints.
- Water based paints.
- Polyurethanes.
- Stains.
- Varnishes.
- Fire Protection Paints.

## Product Features.

- No harmful fumes.
- Non-Toxic.
- Safe to use and store indoors.
- Totally safe brush restoring product.
- Designed for use on better quality brushes.
- Leaves hardened brush soft, smooth & like new.
- Brush re-restorer will work simultaneously on different brushes with different paints.
- Lasts over 3 times as long as comparable solvent based products. Brush restorer doesn't evaporate and can be used time and again.

Pl. Note:- This product works safely with all types of brushes including those with natural and man made bristles.
